

Name: _____ Date: _____

Use this form when you visit an Interventional Radiologist, and write notes in the space provided. Then file the form with your medical records, so that you have your own documentation of what was said and done for future reference.

Have you:

- ρ Asked what treatments your interventional radiologist (IR) is capable of performing?
- ρ Asked what training your IR has had that makes her/him the right doctor for your particular needs and symptoms?
- ρ Asked about cutting-edge treatments like uterine fibroid embolization (UFE), hydrothermal ablation, robotic myomectomy, and other minimally invasive endoscopic procedures?
- ρ Discussed with your IR why you might be a good candidate for one of these treatments?
- ρ Sought a second opinion if your IR is not forthcoming about the options available to you or if you feel that your IR is not appropriately addressing your needs as a patient?
